

THE EUROPEAN MARINE WILDLIFE ROADSHOW

For the past 15 years the Whale Workshop has been touring worldwide with the Marine Wildlife Roadshow, working with many different project partners under different project names, and there are hundreds of internet pages with reports and references on these thousands of roadshows

Internet search for

The Marine Wildlife Roadshow, Whale and Dolphin Roadshow, Cool Seas Roadshow

to view some of the references

Previous roadshow tours have included Chile, Australia, Sri Lanka, Malaysia, as well as many locations in Europe, including Germany, Switzerland, Iceland, Norway, The Azores, Malta & Gozo, and all parts of UK and Ireland : see www.whaleworkshop.org for information, reports, pictures.

The Roadshow uses life-size and life-like inflatable models of marine wildlife, combined with a range of interactive presentations and interpretation methods, to give a unique educational and informative experience to all ages and status of audience. Our models are stunningly life-like.

.....There is now a European Marine Wildlife Roadshow available.....

- with many different packages of wildlife models according to the location in Europe
- with or without spoken presentations
- static or mobile displays of wildlife
- with training workshops to build capacity in local initiatives
- with compact equipment for flights by low cost airlines
- or larger packages for delivery by roadshow transporter across Europe and beyond
- to raise awareness of key marine species and issues that effect them
- to compliment ongoing initiatives by Governments and ngos
- to focus public and media attention where necessary
- to promote Europe-wide conservation efforts to protect our wildlife heritage

This is available for public events, exhibitions, seminars, conferences, festivals, or any other requirement, and could be combined with a week of school roadshows if required.

if you have an idea that you think might involve the European Marine Wildlife Roadshow

please get in touch and discuss your requirements
